

McLaren Health Care Nurses: Advance Your Career with a Nursing Degree from Grand Valley State University

McLaren Health Care and Grand Valley State University (GVSU) are transforming the nursing workforce by targeting the need to increase nursing educational opportunities for nurses from disadvantaged backgrounds and underrepresented minorities.

This program provides financial support for qualified students from McLaren Health Care, who gain admission into select GVSU Kirkhof College of Nursing (KCON) programs. Graduates will be able to deliver culturally aligned care and leadership in providing care for medically underserved areas and populations.

This fall, applications are open for the following programs, which start in January 2022. Each program is 5 semesters long with applied learning experiences in their place of employment:

- **Master of Science in Nursing (MSN) - Clinical Nurse Leader** program (hybrid online and in-person format)
 - This executive style program meets for in-person classes in downtown Grand Rapids five times per semester (Thursday and/or Friday sequence). The remaining coursework is delivered completely online.
- **Registered Nurse (RN) to BSN program** (online format)
 - Winter and Spring/Summer 2022 Semester: Students may complete necessary pre-requisite coursework, meet with their academic advisor, and obtain their individual program plan. Fall 2022 Semester: Nursing courses begin.

Admitted McLaren Health Care nurses will be individually responsible for approximately 20% of their tuition/program fees.* The remainder of the program cost will be funded by GVSU, McLaren Health Care, and the Health Resources and Services Administration (HRSA).

The application deadline is November 19, 2021.
