

# KARMANOS BREAST CANCER UPDATES FOR PRIMARY CARE PROVIDERS

MAY - OCTOBER 2021

## **Purpose and Targeted Audience:**

The conference will focus on one or more clinical issues, the treatment decisions and how those decisions relate to patient outcomes. The attendee not only learns the latest techniques and tools to more effectively and efficiently diagnose and treat a disease, but also techniques and tools that may be either inefficient or result in grave danger to the patient. By presenting the research-based knowledge in conjunction with clinical scenarios, the participants will be able to apply the new knowledge into their clinical practices. This program is designed for the internal medicine patient care team including the primary care physicians and physicians in training.

## **Accreditation Statement:**

In support of improving patient care, McLaren Health Care is jointly accredited by the American Council for Continuing Medical Education (ACCME), the accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the health care team.

## **AMA Designation Statement:**

The McLaren Health Care designates this educational activity for a maximum of 1 PRA Category 1 Credit(s)<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.

## **AOA Accreditation:**

This program is anticipated to offer 1 hours of AOA Category 1-A CME credit, pending the approval of the AOA Council on Continuing Medical Education.

## VIRTUAL CME EVENTS

**YOUR BEST CHANCE.**

# SCHEDULE

May 27, 2021

5 - 6 p.m.

## **Incorporation of Family Cancer History in Primary Care Practice**

Presented by: Michael Simon, M.D., MPH

### **Objectives**

- Identify family history features of common hereditary cancer syndromes.
- Understand and interpret results of genetic testing for consumers at risk.
- Understand important implications of genetic testing results in regards to cancer prevention and risk reduction.

June 24, 2021

5 - 6 p.m.

## **Breast Surgical Oncology: How Far We Have Come**

Presented by: Eric A. Brown, M.D., FACS

### **Objectives**

- Understand similarities in outcomes between surgical options.
- Understand the management of the breast and axilla in 2021.
- Appreciate de-escalation in surgical care.

July 22, 2021

5 - 6 p.m.

## **Breast Cancer Screening Guidelines: How To Manage Women At Increased Risk**

Presented by: Alit Yousif, M.D.

### **Objectives**

- Understand current imaging guidelines and recommendations for breast cancer screening.
- Identify women who need additional/supplemental imaging.
- Understand the tools and techniques currently being used to screen high-risk women.

September 23, 2021

5 - 6 p.m.

## **Breast Cancer Pearls for the Primary Care Physician/Neoadjuvant Chemotherapy: Why Rushing to Surgery First May Not be the Best Option**

Presented by: Jailan Elayoubi, M.D. and Lydia Choi, M.D.

### **Objectives**

- Understand patient selection for neoadjuvant chemotherapy.
- Understand benefits of neoadjuvant chemotherapy for triple negative breast cancer and HER2 positive breast cancer.
- Understand neoadjuvant chemotherapy in hormone positive cancer.
- Understand the role of the primary care physician in educating patients through the whole process (googling facts, myths vs. reality etc.)
