

# Technology Assistance for Cancer Patients & Caregivers (TAC-PC) Study

**Take part in a research project of the TAC-PC Study to learn more about how digital skills and tools can enhance your cancer care!**

The TAC-PC Study is a research project to help cancer patients and caregivers gain access to digital devices and high-speed internet, and use devices, online tools, social media, and patient portals more effectively in cancer care.

## You are eligible for this study if you are...

- 18 years of age or older
- A Karmanos cancer patient who is in treatment or has completed treatment and receives follow-up care
- A caregiver for a Karmanos patient

## Participants in this study will receive support with the following:

- Using digital devices (such as smartphones, laptops, etc.) to manage cancer care.
- Identifying trustworthy online resources and websites for cancer-related information.
- Using the Karmanos Cancer Center HealthLife Patient Portal.
- Online resources for managing cancer and addressing financial needs.

## Compensation

Participants may be compensated up to \$50.

**Even if you are comfortable with technology, you can participate in this study!**
